JOHN EMMANUEL UDOMAH

OBJECTIVE

A full stack developer with over 3 years of experience, a computer science degree, and experience in graphics design, open source, and freelancing.

Actively involved in the development community through membership in the Google developer group and the Institute of Software Practitioners of Nigeria (ISPON). Seeking a challenging role in a dynamic organization where I can utilize my skills to deliver high-quality software solutions and contribute to the growth of the company.

EXPERIENCE

HIIT PLC – DEVELOPER INTERN (FEB 2021 – NOV 2021)

- Worked on projects using technologies such as AngularJS, NodeJS, PHP, Express**.js**, MongoDB and MySQL
- Worked on the development of Quiklabs, a medical laboratory app.
- Implemented new features and made improvements to the application
- Joined in conducting regular code reviews to ensure code quality
- Collaborated with an experience developer in optimizing user experience

FULL STACK DEVELOPER (FREELANCING) (2021 – TILL DATE)

- Worked with clients to understand their requirements and deliver high-quality software solutions
- Optimize web applications for maximum performance and scalability by implementing best practices and techniques such as caching, lazy loading, and code splitting.
- Troubleshoot and debug software issues, and find solutions to improve overall performance.
- Create visually appealing graphics and designs for clients' websites and branding
- Successfully developed and launched over 5 web applications for clients
- Mentored few upcoming developers and assist with code reviews, providing feedback on best practices and techniques for increasing website traffic by 20% through optimization efforts

JUNIOR DEVELOPER – THEVEX COMPANY (2020 – 2021)

- Contribute to open-source projects on platforms such as GitHub
- Developed top notch software solutions and features.
- Review pull requests and provide feedback
- Actively participate in community discussions and forums
